

John Tristan Dolfo

Full-Stack Developer

Quezon City, Philippines | tristandolfo@gmail.com | +63 999 882 7004
tristandolfo.netlify.app | github.com/dolfonator

PROFESSIONAL SUMMARY

AI-native full-stack developer delivering client websites and internal tools from requirements through deployment. Built a paid React, TypeScript, and Supabase dashboard now used by a client, and closed a second engagement within a span of less than two months. Strengths include responsive and tasteful design, accessibility, SEO, and data workflows.

WORK EXPERIENCE

Freelance Software Developer

June 2026 - Present

Quezon City, Philippines | Client websites and business systems

- Delivered a client-paid Cafe Order & CRM Dashboard, a mobile-first PWA now used by a Metro Manila cafe for order intake, customer records, data import, and administrative settings.
- Closed and built the Herminia's Food engagement, creating a conversion-focused, food catering demo site with occasion pages, per-head packages, gallery content, reviews, booking and quote paths, and structured data. The final site is currently in the works.
- Built additional client work for Justdiz Preproductions and The Big Thirty. Used React, TypeScript, Astro, Supabase, Netlify, and Vercel with responsive design and accessibility built into each release.

IT Intern, Philippine government agency

June 3-July 16, 2026

- Supported internal IT operations and adopted AI-assisted development workflows within an institutional environment.

Point-of-Sale System, Co-developer

2023

- Co-developed sales, inventory, and database workflows for a local electronics retailer.

EDUCATION

BS Electronics Engineering, Ateneo de Davao University

2021 - 2026

BS Life Sciences, Ateneo de Manila University

2018 - 2020

SELECTED PROJECTS

Cafe Order & CRM Dashboard

2026

Paid client project | React, TypeScript, Supabase, Netlify

- Built and deployed a PIN-gated PWA for orders, customer records, and data imports; the paid system remains in client use.

Personal Portfolio

2026

Astro 7, TypeScript, Netlify, Vercel | tristandolfo.netlify.app

- Built an Astro portfolio with design tokens, WCAG AA themes, reduced-motion and Save-Data controls, JSON-LD, and automated social and SEO assets.

Herminia's Food

2026

Closed client engagement | herminias-food.vercel.app

- Built a Filipino-food catering demo site with package pages and direct booking and quote paths. Final project is currently in the works

The Big Thirty (public-demo version of a private birthday gift website)

2026

Paid Personal Commission | Netlify Blobs | bday-public.netlify.app

- Built editable stories, letters, gallery uploads, reveal controls, and isolated Netlify Blobs for simple backend data storage.

LEADERSHIP

Head of Sponsorships and Partnerships, SELECOMES

Society of Electronics Engineering Students | Ateneo de Davao University

Apr 2023 - Mar 2024

TECHNICAL SKILLS

Web/App: React, TypeScript, Astro, HTML, CSS, JavaScript, Supabase, PWA development, relational database design

Delivery and quality: Git, Netlify, Vercel, WCAG AA accessibility, SEO, JSON-LD, responsive design

Agentic Tools: Claude Code, OpenAI Codex, SuperGrok, MCP

Embedded Systems: ESP32, LoRaWAN, Arduino, Raspberry Pi, C++, IoT systems
